Minutes of Meeting (MoM)

Date: 4th March, 2025

Attendees:

- Arshiya Noureen
- Kushal Mangla
- Sanyam Agrawal
- Shreyas Deb
- Vishak Kashyap K
- Client (Co-Founder and CTO of uExcelerate)

Key Points Discussed

Frontend Development

- Minor UI adjustments made to the **landing page, login/signup page, and about page** for better alignment and spacing.
- Fixed a minor bug where the **login form validation** was not displaying proper error messages.
- Improved responsiveness for mobile screens by adjusting CSS styles on the **dashboard page**.
- Integrated frontend with backend APIs for **user authentication and profile retrieval**, ensuring smooth data flow.

Backend Development

- Fixed minor issues in **learner routes**, ensuring smoother data retrieval from the database.
- Implemented missing error handling in user authentication routes.
- Connected **frontend login and signup forms** with the backend API.
- Optimized database queries for faster response times in **user and course-related APIs**.

Infrastructure & Deployment

- Set up basic API security measures for backend routes using **token-based authentication**.

- Ensured backend services interact correctly with the frontend.
- Discussed and confirmed that DNS setup will happen post-integration testing.

Action Items

- Finalize details about the Recommendation engine.
- Finalize **learner route testing** and ensure accurate data retrieval.
- Conduct internal testing for **frontend-backend interactions**.
- Proceed with further UI refinements based on testing feedback.

Next Meeting: TBD based on progress and client availability.
